CHARLESTON, WV

304-755-5030

165 Jacobson Dr. Poca, WV 25159

A MESSAGE FROM OUR OWNERS

We are deeply grateful to our customers and vendor partners for trusting us as the bridge between technical potential and real-world results. Since our founding, our priority has remained the same: to work with customers and vendors to turn challenges and ambitions into shared successes.

Our team thrives on the front lines of industry: from automotive assembly to foundries and mills. We learn enthusiastically from every real-world application and complex project execution. We keep our fingers on the pulse of manufacturing.

We represent the best in the business - vendors with masterful design, product ingenuity, and world-class capabilities. By curating and communicating we help shape the evolving equipment landscape, and we are here to drive solutions home.

We are passionate about putting the best technology into the hands of the people who deliver the highest return from using it—the engineers, technicians, tradesmen, and operators in the plant and in the field. Thank you for letting us equip your business with the tools needed to advance your operations and your mission.
